Adjustable base friendly

TERRAPUR™ NATURAL LATEX

Certified 100% natural and Oeko-tex class 1, TerraPur™ Natural Latex is hypoallergenic, breathable and delivers a unique buoyant quality which relaxes muscles and relieves tension.

JOMA® WOOL & CASHMERE

This luxurious natural fiber blend helps regulate your body temperature, while offering a soft feel that reduces pressure points and provides a sumptuous and exquisitely smooth feel.

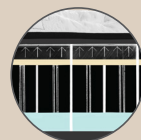

ORGANIC COTTON

Unmatched for its durability and unparalleled sheen, layers of prime organic cotton felt enable the mattress to naturally breathe, preventing the buildup of heat and moisture.

JACQUARD DAMASK FABRIC WITH SEACELL™

Our Jacquard Damask panel fabric is natural, made with viscose and SeaCell™. Derived from renewable resources, cellulose and seaweed, SeaCell™ revitalizes the skin and adds an extra touch of softness and comfort.

AIRELOOM LIFT™

We've pioneered a natural chamber between the core and the mattress-top that allows every element to breathe. When the chamber meets the adaptive layers of plush materials, the bed completely synchronizes with your body. It can only be described as a lift.
